### **K-8 Staffing to optimize Class Sizes** (\$65,000)

### **Developmental PE program** (\$55,000)

### **K-8 Staffing to optimize Class Sizes** (\$65,000)

### **Music, Visual & Performing Arts** (\$15,000)

### **Library Services** (\$5,000)

### **K-8 Student Counseling** (\$5,000)

### **K-8 Staffing to optimize Class Sizes** (\$35,000)

### ***Possible NEW programs if we exceed our goal!***

### **K-8 Technology updates and upgrades** (\$10,000)

### **Math dedicated computer lab** (\$20,000)

### **Library Computer Upgrades** (\$10,000)

### **Science Activity Lab** (\$10,000)

### **Foreign Language Program** (\$10,000)

**Help bridge the gap between California funding and our children's needs**

Did you know that California is in the bottom third in the United States for per student spending? State funding for education in California is inadequate for many basic programs and insufficient to fund enrichment programs.

Many valuable programs are no longer automatically funded. Programs like art, music, science and technology. With your help, every LPUSD student will continue to receive the education they deserve, a well-rounded and thought-provoking curriculum that incorporates music, science, technology and the arts.

Help bridge the gap in funding. We can do this by working together!

A coordinated year-long fundraising effort is underway by LPEF and the Home & School Clubs, culminating in the annual KEEP "cash" campaign that ends May 1, 2007. The suggested family contributions are: \$600 for one child and \$900 for more than one child. *However any amount will bring us closer to our goal.* Higher contributions are also necessary if we are to reach the 2007 KEEP target.

**Your donation is 100% tax deductible.**

## Loma Public Education Fund

The Loma Public Education Fund (LPEF) is an all-volunteer non-profit education foundation which raises money to enhance the experience for all students in the Loma Prieta Joint Union School District.

LPEF was founded by a group of parents in early 2001 in response to declining enrollment, reduced revenues from the state and an urgent need to preserve and enhance the District's ability to offer outstanding educational programs.

LPEF believes that the best educational experience is one that blends academics, the arts and sports. It is our goal to continue working with the District to develop coordinated funding strategies that best benefit all our students.

In 2005, in response to dramatic decreases in California funding levels for public education, LPEF joined with other community groups to develop and launch the first KEEP Campaign. More than \$500,000 has been raised and put directly towards programs for our children.
